

# THE CLEAR ALTERNATIVE TO BRACES®

Developed with Orthodontists,

Invisalign is a virtually invisible solution, so you can smile confidently both during treatment and after. Using a series of clear, removable aligners, Invisalign gradually moves your teeth toward the smile you've always wanted. And, almost no one will know you're wearing them unless you tell them.

## Clear, Removable, Comfortable

Invisalign is comfortable to wear and easy to live with. You visit your doctor every month or two to check your progression and get new aligners. Average treatment time is about a year. Because the aligners are removable, you can continue to eat your favorite foods. And you can brush and floss normally to keep your teeth and gums healthy.

### RESULTS YOU CAN SEE

BEFORE INVISALIGN

AFTER INVISALIGN

**SPACING TREATMENT**  
Nine months, 19 aligners

**CROWDING TREATMENT**  
Seven months, 14 aligners

Actual treatment time and results may vary.

## Treatment Options

Many people believe that Invisalign is only effective at treating minor orthodontic issues. But the fact is that our 96% patient satisfaction rate<sup>1</sup> is a result of successfully treating a broad range of cases, from overly crowded teeth and underbites to jaw problems and tooth misalignment.

**CROWDING**  
Not enough room for the teeth

**SPACING**  
Spaces between the teeth

**OVERBITE**  
Protruding upper teeth

**UNDERBITE**  
Protruding lower teeth

**DEEP BITE**  
Upper front teeth hide lower teeth

**OPEN BITE**  
Back teeth are together but space is present between the front teeth

Ask your doctor how Invisalign can work for you. Most Invisalign-trained doctors offer free consultations. Ask yours today.
