## Are you uncomfortable with your smile?

Chances are, if you are reading this, your smile is not something you are proud of. Six Month Smiles has helped thousands of people smile with confidence and it might be the perfect solution for you!

Six Month Smiles is for adults with crooked, spaced, or misaligned teeth. Using clear braces to gently straighten and align teeth, the average time most people wear braces is just six months.

## Frequently Asked Questions:

**Q** Straight teeth in 6 months, how is this possible?

**A** Six Month Smiles clear braces are safe, comfortable, and provide quick results because they only move the teeth that show when you smile. Using proven techniques and materials, the braces have been specifically designed for adults with crooked, spaced, or misaligned teeth.

**Q** Does everyone really finish in 6 months?

**A** Six months is the average treatment time. Most patients finish right around six months, but treatment times may range from 4-9 months.

**Q** Are retainers required?

**A** Yes, as with all orthodontic treatment, a retainer is necessary to maintain the new, straight position of your teeth. There are a variety of retainer options you can choose from depending on your personal preference and situation.

**Q** Is there a catch?

**A** There is no catch, if you are an adult patient with crooked, spaced, or misaligned teeth, then this could be a fantastic option for you! Ask your dentist today if you are a candidate for Six Month Smiles!
